\* please note that while the above images are of a Hanse 415, some of the options may differ from MOONLIGHT. Please check with our inventory inclusions.

## THE BEST 40 FOOTER IN ITS CLASS!

*The Hanse 415 had a lot to live up to . . . after all her predecessor the 400 was Australia's best selling 40 foot yacht . . . ever! The 415 however, is not an upgraded version of the 400 she's a completely new design reflecting the modern demands for state-of-the-art, fast cruising yachts.*

How do you build the perfect yacht? Where do you start? The only place is with a great design.

Hanse employs the best yacht designers in the world. Judel / Vrolijk design every Hanse yacht. They are quite simply the best designers of cruising and racing yachts in the world.

Their designs win awards...and their yachts win races. Judel / Vrolijk shot to fame when 'Alinghi' won the America's cup.

And they have over 25 years experience designing the very best yachts.

As with all Hanse yachts, the 415 sails beautifully. Hanse have extended the waterline by 60cm and kept the same sail area bringing her increased hull speed. The hull is a modern Judel / Vrolijk design with some increased width especially at the rear. For you this means a better use of space down below and on deck.

You'll love the spacious, safe and comfortable cockpit with a wide walk-through to the large, easy-fold bathing platform. The Hanse 415 is incredibly easy to handle. All lines lead aft to winches in easy reach of the twin helm positions and of course the legendary Hanse self-tacking headsail is standard. Everything you need is within easy reach. All your halyards, sheets and reefing lines run below the decks to the helm positions. And there are big lockers to store your lines and fenders. Access to the interior is easy thanks to a low threshold, optimised staircase angle &- solid stainless steel handrails.

The patented cascade washboard system is neat and easy to use and you can lock it at the half open position. Hanse designers always think hard about the ambience inside your yacht. You'll really appreciate the indirect lighting with optional LED overhead lights.

There's plenty of space around the large saloon table and if you like to entertain you can choose the extra large galley option giving you heaps of workspace and storage.

The 415 performs beautifully thanks to her:

- Judel / Vrolijk hull
- Long waterline
- 87m<sup>2</sup> sail area
- 2.10 m T-keel
- Extended beam in the rear part of the hull
- And, long rudder and quality Jefa yacht steering system
